FINANCIAL POLICY

- 1) Insurance Patients: We understand the value of dental insurance benefits. We will gladly process your claim for you and will also estimate the portion that is not covered by insurance. This copayment is due at the time services are rendered. Our estimates are based on information that you have furnished us regarding the benefits of your company plan.
- 2) Non-insurance Patients: Payment is due at the time services are rendered unless other arrangements have been made with our financial coordinator.
- 3) Payment Options: cash, Money Orders, Personal Checks, Visa, Mastercard and Discover

I HAVE READ AND UNDERSTAND THE CONTENTS OF THIS FORM AGREEMENT TO PAY

The undersigned accepts the fee charged as a lawful debt and promises to pay said fee including the cost of collection, attorney fees, and court costs if such be necessary, waiving now and forever the right to claim exemption under the constitution and laws of the State of Alabama, or any other state.

GENERAL INFORMATION AND CONSENT

We are pleased to receive your child as a patient in our office and feel honored by the confidence you have placed with us. We sincerely desire to make his or her visits as pleasant as possible. We feel that we can better establish a patient-doctor relationship if our parents and patients are familiar with the service and procedures of this office.

PARENT POLICY: We respectfully ask that parents remain in the reception room during treatment times. It has been our experience that children are much more cooperative and have a more positive outcome when parents are not in the room. There are exceptions to this policy, such as very young children (age 2 and under), and children with special needs. Parents will generally be called to the back after treatment and are welcome to tour the office. We appreciate your trust and confidence regarding this policy.

INITIAL VISIT: Each child receives a thorough examination on their first appointment. It usually includes a prophylaxis (cleaning of the teeth), topical fluoride, and dental x-rays, if they are needed. Oral hygiene instructions will be given to the patient and reviewed with the parent along with dietary recommendations. We employ all procedures available to reduce radiation risk including thyroid and gonadal lead apron, collimated x-ray machine and the fastest film available today. We feel that it is extremely important for a child to have a full mouth x-ray (panorex) starting around the age of 5 or 6 to check for any problems such as extra permanent teeth, congenitally missing teeth, cysts or eruption problems.

COMPOSITE (WHITE) FILLINGS: Our office only places white, composite resin fillings. We do not use the amalgam (silver) filling material at all. You should be aware that insurance companies may cover these fillings differently. Please feel free to speak with our office staff if you have questions about your particular coverage.

PREMEDICATION: It is often necessary for certain dental procedures to premedicate patients with heart problems or joint replacements using antibiotics. Please make us aware if your child has ever had any of these conditions.

NITROUS OXIDE (LAUGHING GAS): Frequently, we will employ the "Happy Air Nose" (nitrous oxide) to help reduce anxiety and fear of dental procedures. It is tremendously effective when treating children and is very safe.

HOSPITAL DENTISTRY: Some young or handicapped children requiring extensive treatment would benefit by having their work done under general anesthesia in the hospital setting. If we feel this is a necessary way to treat your child, we will thoroughly discuss hospital dentistry with you.

ORAL CONSCIOUS SEDATION: Children with considerable anxiety about undergoing dental treatment may benefit from use of an oral sedative. If we feel that this might be helpful in your child's case, we will thoroughly discuss it with you and set up a time for such a procedure.

ORTHODONTICS: At each six month hygiene appointment your child will be checked for proper eruption of teeth an/or any malocclusion that may be developing. We will inform you of any treatment that we feel is necessary for your child.

CHILDREN'S TIME: Although we schedule appointment times for the treatment of your child, our office operated on "children's time." This means that occasionally some of our patients who are not particularly interested in getting their dental work done may take extra time to be made more comfortable and less apprehensive. This will invariably play havoc with our schedule and cause some delays. So let me personally apologize for running behind now! We are guilty of letting our patients manipulate the schedule somewhat when we are trying to give them the best possible dental experience. We also see many emergencies since children may have accidents at home, school or play.

PLEASE LET US KNOW IF YOU OBJECT TO THE USE OF FLUORIDE AND/OR X-RAYS. We intend to render dental services to your child as we would our own. If at any time you have questions concerning your child's dental health, please feel free to ask us.
